## 2nd Circular

### 7th Friends of Friends Meeting

We are close to the seventh Friends of Friends 2017 meeting that will be held in Cordoba (Argentina) from April 3 to 7, 2017. We are pleased to announce that we have numerous national and international guests which can be seen on the official website <http://fof.oac.uncor.edu/fof/invited.html>.

#### Important:

The deadline for abstracts submission and registration is February 19, 2017. Applications must be completed through the web form (<http://fof.oac.uncor.edu/fof/registration.php>).

We encourage the participation of young researchers and students. Thanks to the support of the Argentinean Astronomical Society, we have funds available to cover partial travel expenses (accommodation/tickets) for members presenting work (poster or talk) and with their dues up to date.

The poster session will also have an oral presentation of five minutes per person to summarize the work.

In this edition there will be a session on Astroinformatics with python tutorials, visualization, machine learning, and HPC. In addition, there will be recreational, cultural, and touristic activities.

Questions should be addressed to the meeting email:  
[fof@oac.unc.edu.ar](mailto:fof@oac.unc.edu.ar)

We look forward to your participation and we appreciate the distribution of this announcement among your colleagues. The second circular is attached to this email.

#### FoF 2017 LOC

*Organizing institutions:* IATE (Instituto de Astronomía Teórica y Experimental - CONICET/UNC) and OAC (Observatorio Astronómico de Córdoba – UNC).
